

Jamie's Christmas Composition

Fifteen-year-old Jamie, was born so prematurely that he could fit into the palm of his mother's hand. As well as being blind, he is autistic and has cerebral palsy, but despite his profound disabilities, Jamie has an exceptional talent for music. Music is a major part of Jamie's life – and it clearly makes him happy.

Jamie, who loves to compose his own pieces, has written this special Christmas song for you to enjoy. Just click on the big arrow in the middle of the picture and listen to Jamie singing his song.
